Missing Rotary Member ID Report

The following list shows all members that currently do not have a Rotary Member ID specified, which is needed to synchronize changes under the new RI Integration system. Note that ClubRunner automatically populates the Rotary Member IDs based on a search on Rotary's database. This search must return a unique record that matches both first and last name in order to update the ClubRunner profile. For any names listed below, you can manually update their Rotary ID by looking them up through the Rotary International website under Member Access.
